Prices are F.O.B. mill, excluding freight

Lumber markets got off to a somewhat slow start for the first full business week since the holidays. Winter weather dampened the pace of activity in many markets. SYP dimension saw some light activity, while SPF was lackluster and vulnerable to counters early on. Green DF dimension was relatively quiet, though studs did get some action. OSB activity in the SE picked up by midweek as a round of covering took place in that region. Welcome to a new decade!
