SPF dimension picked up mid week and saw as solid a round of buying as it's seen in weeks. Green DF dimension also stayed on an upward trend, with 2x4 leading the way. SYP dimension remains on softer footing. Between rail issues in the west and production issues in the south, OSB remains tighter than a fat man in spandex. Don't expect that to change anytime soon. Plywood sales in both fir and SYP were lackluster this week. All eyes on Augusta National this weekend.
