Prices are F.O.B. mill, excluding freight

More favorable spring weather across much of the country failed to spark much action in lumber and panel markets. Dry DF, WSPF, and SYP wides all softened in price this week as buyers felt no true sense of urgency. Adding to the lackluster tone on Wednesday was the February housing start report, which dropped double digits in single family - a large consumer of wood products. OSB remained flat to down as secondaries spun contracts sometimes at a discount.
