Composite Average	367	06	429

Prices are F.O.B. mill, excluding freight

The cooler market pace that ended last week prevailed this week. By midweek it was apparent that the secondaries had plenty of wood in hand and were open to slight counters. Weather has been a key factor in California as rain continues to hamper jobsite activity. SYP is the healthiest lumber species at the moment. OSB appears to be cooling in the south now, though plywood remains strong.
