The pace of the market eased in many commodity items compared to the two previous weeks, with SYP dimension being the stand out. SPF producers reported much less volume activity as buyers digested recent purchases. GDF dimension saw steady movement up, while SYP sales accelerated, especially 2x6. OSB was a regional play, with western and northern markets strong and southern markets not so much. Buyers are watching the inventory levels at secondaries closely to see if the markets will continue or fizzle. We are off of the bottom levels this year no matter the case.
