Prices are F.O.B. mill, excluding freight

With the exception of GDF dimension, commodity markets were quiet at the mill level for the second week in a row. Buyers were largely content to sit back and digest recent purchases as signs of a two-tiered market continued to surface. SYP and SPF dimension showed the most softness in lumber, and secondaries in many markets looked to move OSB loads off for fairly prompt shipment. The SE and Midatlantic markets, where recent OSB closures occurred, were still bullish.
