Commodity markets continued to rise this week as supply clearly has become a problem in the near-term. SYP dimension continues to lead the charge with treaters continuing to drive those markets. Studs continue to be hot as well in most species. Green DF rose again with the opening of the No Cal market this week. OSB got stronger in Northern markets and continues to be in tight in supply in many markets both north and south. Distributor & office wholesale offerings remain lean, creating potential headaches for jobsites that haven't planned ahead.
