And the beat goes on. With apparently no governor on the engine that is commodity building materials, prices shot up yet again on all things wood. Price continues to be second to availability on pretty near everything now. More stories of suppliers pulling contracts and backing out of deals are popping up each week. While rail seems to be getting better, trucking most certainly is not, so even if you bought it, you will likely be delayed in receiving it. The building industry is fractured and it's looking like it'll remain that way for a long time. Be careful making promises!
