Lumber price drops gained steam as the long overdue unwinding from record prices accelerated. SYP and SPF dimension once again led the retreat, with dry DF and green DF also declining sharply. Sir Isaac Newton would be proud to see gravity in effect. Secondaries with unsold positions squirmed beneath the rubble, pleading for last look. Buyers stayed largely on the sidelines nonetheless as liquidity froze in lumber. Plywood and OSB showed widening cracks from the secondaries. Mills continue to ride order files, but time is running low for them. Demand remains strong, and a market bounce will come at some point. Don't wait too long to cover your needs lest you be caught in the rush through the keyhole.
