Lumber markets found some better activity this week as news was released of curtailments out of B.C. and wildfires in Eastern Canada. Western SPF saw the biggest price gains as buyers rushed in to cover needs before mills aggressively raised quotes. Green DF also saw some strong gains early in the week as producers captured double digit increases. OSB remained quiet while Southern plywood continued to see lower prices on most thicknesses. And congrats to the Denver Nuggets as they were crowned NBA champs for the first time on Monday night beating the Heat 4-1 in the series!
