4X8 23/32 OSB T&G	440	0	655
Composite Average	513	07	543

As we push closer and closer to Christmas and New Year's, numerous holiday mill curtailments and buyers prepping for early Q1 business have buoyed the market. Coast to coast, we saw increased activity, with almost every item bumping up. In the East and South, SPF/SYP narrows showed the most activity, with supply tightening and distribution stepping in to rebuild inventory after sitting on the sidelines for months. In the West, increases were widespread, with 2x4 through 2x12 bumping. The 2x6 showed the most activity, but wides saw sunshine for the first time in months. As we wrap up '25—a year the mills would love to put in the rearview mirror—there's a glimmer of hope heading into '26. Trump's address to the nation Wednesday night touched on a major overhaul to housing in Q1. Details were unclear, but it's something to keep your eye on. With this being the last full week of '25, all of us at IdaPac wish you a Merry Christmas and Happy Bowl Season—it'll be rockin' in Norman tonight.
